

# Example: Approved Pole Banner Site Plan

- Poles CANNOT have, any of the following attachments:
  - oTraffic-Control Signals
  - oPedestrian-Crossing Signals
  - oArt-Installation attachments
- Banners must be installed no more than 30 days prior to the event.
- Streets with Metro attachments must have prior approval from King County Metro before receiving your SDOT permit. (Otherwise, metro poles are ineligible).
- Most pole banner permits require an annual vehicle permit or a ROW construction permit for the installation. The applicant is responsible for acquiring related permits for installation.
- You're responsible for continued maintenance of throughout the banners life, including removal when required. (For Event Banners, banners must be removed 5 days after event).
