

RAINIER ማሻሻያ

አዲስ የመንገድ ማብራትና የእግረኛ ማቋረጫ በ Rainier እና Rose 2020/2021

በ RAINIER/ROSE ለውጥ ማምጣት ለምን አስፈለገ?

የ Rainier እና Rose መተላለፊያ በ Rainier ላይ ለሚደርሰው የመኪና ግጭት ዋና መተላለፊያ ነው። ብዙዎቹ አደጋዎች የሚደርሱት አሽከርካሪዎች በ Rainier ላይና ከዚያ ወደ ወደ ግራ ስታጠፍ በ እግረኞች መካከል ላይ ነው። ለሁሉም ደህንነቱ የተጠበቀ ምቹ እንዲሆን ለማድረግ እየሰራን ነው።

ምንድነው የሚቀየረው?

ከጎረቤቶችና በሲያትል የኢትዮጵያ ማህበረሰብ ጎብኝዎች (በአጠቃላይ 100 ለሚሆኑ ሰዎች) ሁለት አማራጮችን ነግረናቸዋል። አብዛኛው ህዝብ የአሁኑ የእግረኛ መንገድ ወደ 4- ሙሉ የትራፊክ ምልክት ከፍ እንድል ይፈልጋሉ።

ገንዘብ አሰባሰብን በአሁኑ ሰዓት ለሙሉ የ መንገድ ትራፊክ ምልክት እየሰራን ሲሆን ይህም በሰዓት በኩል አዲስ የእግረኛ መንገድን፣ አዲስ የመሃል መታጠፊያ መስመርንና የእግረኛ መንገድ ጠርዝ ማስፋትን ያካትታል።

ወደ ግራ ለመታጠፍ በቂ ቦታ ለመፍቀድ በምዕራብ በኩል ያለውን የመኪና ማቆሚያ መስመር ማስወገድ እንፈልጋለን። የመኪና ማቆሚያ በጣም አስፈላጊ መሆኑን እንረዳለን፤ በመሆኑም በአካባቢው ያሉትን የንግድ

ድርጅቶች ለመደገፍ አዲስ የመኪና መሳፈሪያና መውረጃ ዞን ለመጨመር እየሰራን ሲሆን በምስራቅ በኩል አዲስ የመኪና ማቆሚያ መንገድ እንጨምራለን።

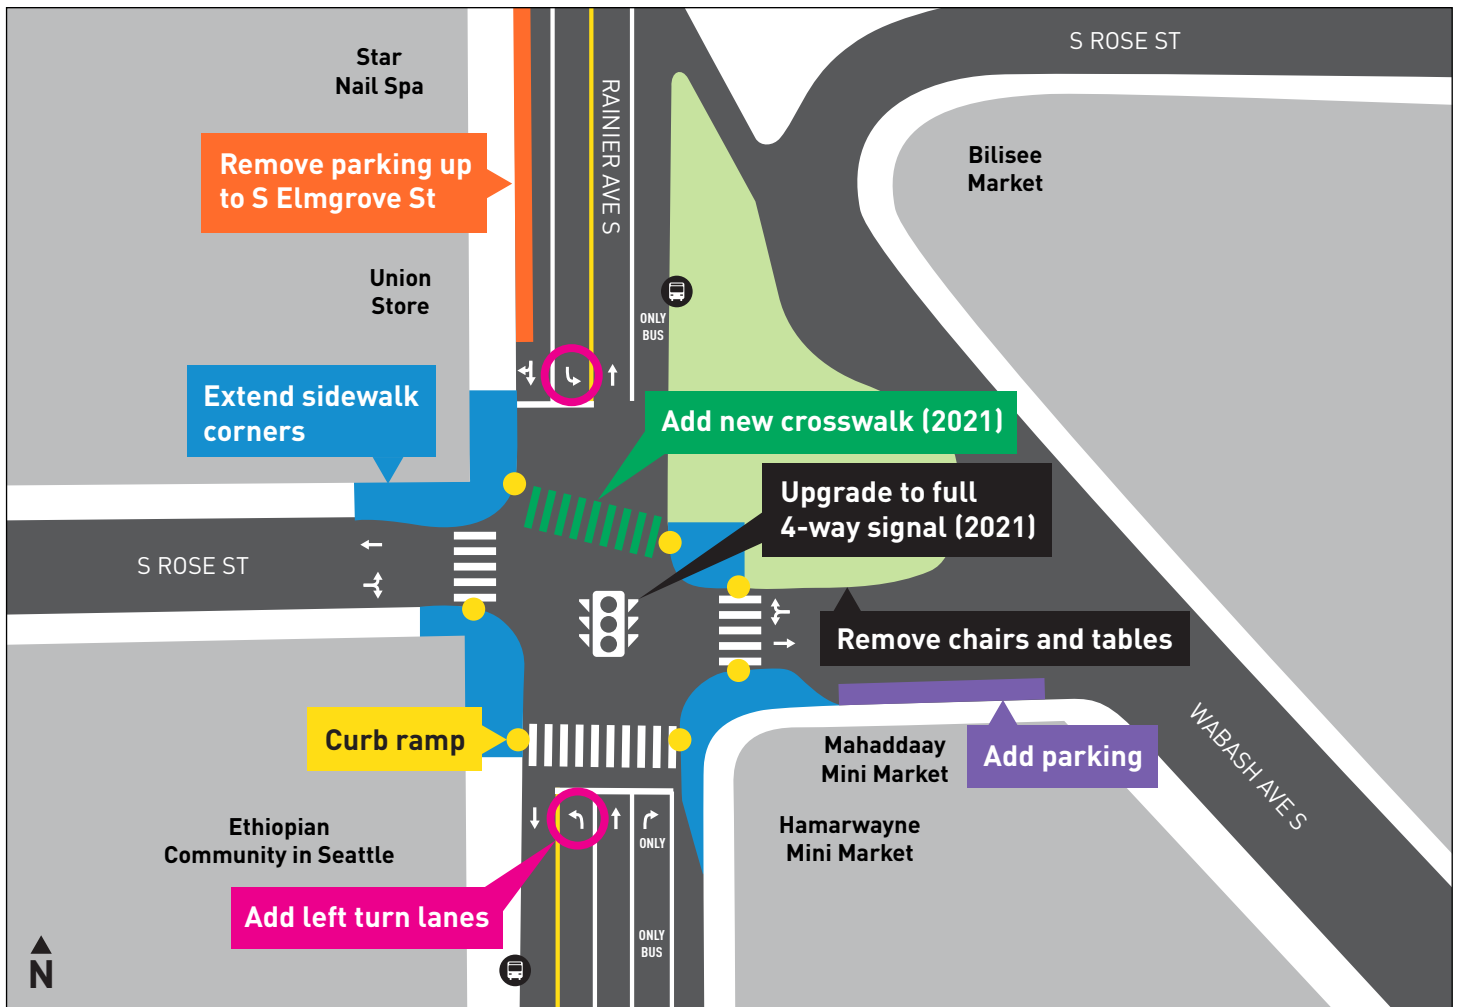

ይህም መተላለፊያዎችን በማድረግ የግራ መታጠፊያን የበለጠ ምቹ በማድረግ የመንገድ ደህንነትን ያሻሽላል። አውቶብስ ለመሳፈር በአካባቢው ወደሚገኙ የንግድ ድርጅቶች ለመሄድ መንገድ ለሚያቋርጡ ሰዎች ምቹ ሁኔታን ይፈጥራል። ይህንን ማሻሻያ በ 2020/2021 ለመገንባት እናስባለን።

ሬይናርን ደህንነቱ የተጠበቀ እንዲሆን በመርዳትዎ እናመሰግናለን

New Signal and Crosswalk at Rainier and Rose

WHY MAKE CHANGES TO RAINIER/ROSE?

The intersection of Rainier and Rose is one of the top intersections for crashes on Rainier. Most crashes happen when drivers are turning left on and off of Rainier and many have involved people walking. We're working to make it safer and more comfortable for everyone.

WHAT WILL CHANGE?

We shared 2 different options with neighbors and 'Ethiopian Community in Seattle' visitors (about 100 people total). We heard most people wanted an upgrade from the current pedestrian signal to a full (4-way) signal.

We are currently working on design for a full signal which will include a new crosswalk on the north side of the street, a new center turn lane, and extending two of the sidewalk corners.

To allow space for the left turn pockets, we need to remove parking on the west side of the street. We know parking is very important, so we're working to add new load zones to support businesses, and we're adding new parking on the east side of the street.

This will improve safety by organizing the intersection and better facilitating left turns. It will also make crossing the street much more comfortable for people walking to catch the bus and visit local businesses.

WHEN WILL THIS HAPPEN?

We had originally planned to build all these improvements in 2020 but with budget cuts and constraints on our construction crews, we're now planning to build the signal and north crosswalk in 2021. The rest of the improvements are still planned for 2020.
